INTERVIEW SUMMARY

This interview summary is being filed to memorialize a telephone call between the Examiner and the undersigned, which took place on October 20, 2008. During that conversation, we discussed the comment on page 9 of the Office Action that the claims do not require "a direct connection of the switches and shared emitter nodes". The Examiner indicated that if the claims were amended to specify a direct connection, that they would define over the art. However, the Examiner indicated that further search would be necessary.

The undersigned attorney can be reached at the address shown below. All telephone calls should be directed to the undersigned at 617-521-7896.

Respectfully submitted,

Date: October 21, 2008
